To,

The D e chief Engineer
2 10734 & 11/4/46
calls for certain information

Gen A here 2/4.

From the D e chief Engineer
No A & e 40/45 & 13/5/46
Furnishes a report

14) It is reported that in view of the heavy commitments such as construction of building for the Dawangere municipal high school, underground drainage, Rose construction of a R e c
Tank at two places, the Dawangere Town

Municipal council are not in a position to meet the entire cost of the drainage work, as noted under para 9(1) supra and hence the D C, recommends that half the cost viz Rs 10,755/- may be given as an outright grant, the other being met out of the funds of the self

15) In this connection, it is submitted that so far, no amount has been given to the Davangere Town self either out of the water supply or Town improvement grants for the year 1945-46 A sum of about Rs 2 lakhs is available under T I grant the financial position of the self is satisfactory - vide para 8

16) In the above circumstances, the proposals - A, B & C as noted under para 9 supra are submitted for orders with reference to para 11 of the notes

Mysore 24/5/46 17) This is a question which affects the health of the inhabitants of the area. It is therefore proving the Government of the Davangere Municipal Council to remove the nuisance complained of, by laying the

sewage water further 1/2 from these c

dwellings

(8) The D.C. recommends the grant equal to a moiety of the cost up to £7,000 towards this work; in the first place the Council has heavy commitments to bear the entire charges

(9) But this is an ample duty for the Council to be in a position to meet the expenditure as judged by the Budget figures projected

Having regard to the recommendation of the D.C a grant of £7,000 - equal to one third of the estimated cost may be given to the Darwagan Sewerage Scheme for this work, with the Government paying the current year, as a special case

10) for which a repeat grant

11) What are the principal grants in aid made to Hospitals in recent years?

J Bond
27/5

12) The following information shows the grants given to the

Circulation Note

SUBJECT - Construction of a drain for diverting the sewage water in the Davangere Town Municipality from Anekonda Village in Jagalur Road

The Deputy Commissioner, Chitaldrug District states that the sewage water of Davangere Town runs into the village of Anekonda, that this has caused nuisance to the village and that the villagers have requested for relief In order to remove this long standing nuisance in the said village, an estimate for Rs 24,300/- was got prepared by the Municipal Council for the construction of a box drain for a distance of three furlongs for deviating the present course of the sewage and submitted for sanction of Government in January 1946.

On receipt of this estimate, Government considered it desirable that permanent measures for the disposal of sewage should be undertaken in consultation with the sanitary department instead of merely transferring the nuisance of the Town to a little distance further. This was communicated to the Deputy Commissioner, Chitaldrug for suitable action. A revised estimate for Rs.42,750/- has now been got prepared by the Sanitary Engineer, making provision for the permanent disposal of the sewage of the Town The same has now been submitted for the sanction of Government. According to this revised estimate, all the sewage of the Town is led in a syphon pattern drain to a distance of 300 feet to a septic tank of a capacity of one lakh of gallons and after treatment with chlorine, it will be made use of for irrigating lands. The septic tank will admit of easy adoption to the underground drainage scheme in the town when taken up.

In regard to the financing of the estimate in question, the Davangere Town Municipal Council is agreeable

to

to pay half the cost and it prays that the other half may be met by the Government. The Deputy Commissioner, Chitaldrug District recommends sanction to the above proposal.

Since this work would be doubly useful to the Municipality and to the Aheronda Village, it is proposed to sanction the above estimate for the work in question.

The Dewan and the Minister for Revenue and Communication have agreed to the proposal.

Points for orders are -

1. Sanction to an estimate for Rs.42,750/- making provision for the permanent disposal of the sewage of the Davangere town as detailed above, the cost being met by the Government and the Municipal Council in equal proportions.

2. Sanction to the Government share of the cost viz., Rs.21,375/- being given as a grant out of the Town Improvement Grant for the year 1946-47.

Subject — Construction of a drain for diverting the sewage water in Davangere Town Municipality from Anekonda village on Jagalur road

===

1 The sewage water of Davangere Town runs into the village of Anekonda and this constitutes a source of serious nuisance to the villagers, calling for immediate relief As a remedial measure, the town Municipal Council, Davangere, originally sent up proposals for the construction of a box drain for a distance of three furlongs at an estimated cost of Rs 24,300/-, for deviating the present course of the sewage

2 On receipt of this proposal, Government considered it desirable that permanent measures for the disposal of the sewage should be undertaken, in consultation with the Sanitary Department, instead of a mere transference of the nuisance to a little distance further This view was communicated to the above Municipal Council Accordingly, a revised estimate for Rs 42,750/- has now been prepared by the Sanitary Engineer and under this modified scheme, all the sewage of the town is led in a sylk pattern drain to a septic tank built at a distance of 300 ft with a capacity of one lakh of gallons, and after treatment with chlorine it will be utilised for irrigating lands The proposed septic tank also admits of easy adoption to the underground drainage scheme in the Town, when this comes into being The work is thus beneficial both to the Davangere Town Municipality and the Anekonda Village

3 The Davangere Town Municipal Council has agreed to bear half the cost of the scheme, and prays for the other half being met by the Government It is proposed to sanction the above estimate, the cost being met by the Government and the Municipal Council in equal proportions The Government share of the cost amounting to Rs 21,375/- will be met out of the Town Improvement Grant for the year 1946-47

4 The Dewan and the other Ministers of Council are agreeable to the above proposals, and I solicit the gracious approval of His Highness thereto

BANGALORE,

To

V B Mallaradhya Esq, M A,
Secretary to Government, Revenue Department,
Bangalore

Sir,

I have the honour to state that the residents of Anekonda village, Davangere taluk represented to the Minister for Public Works, during his tour in this District, in November 1945 that the Sewage water of Davangere Town runs into the village and requested for relief The Minister was pleased to observe that this flow of sewage water may be got diverted immediately

2 On a reference made by me the President of Davangere Municipality, in his No H C 61/45-46 dated 27-12-45 has reported that the present course of sewage cannot be deviated but improvement may be effected by constructing a box drain, for a distance of three furlongs at an estimated cost of Rs 24,300/ and the council is agreeable to meet half the cost of the estimate and that the Govt may be requested to meet the other half

3) I request that orders of Govt may kindly be obtained to sanction the proposed work and also to provide a sum of Rs 12,150/ out of the town Improvement grant during the current year as the Municipal Council is agreeable to bear the other half out of the closing balance of the Municipality The construction of this box drain is felt very necessary to remove this long standing nuisance from Anekonda village

4) A copy of letter No H C 61/45-46 dated 27-12-45 and a copy of the resolution of the council are also enclosed for favour of reference

I have the honour to be,
Sir,
Your most obedient Servant,

Deputy Commissioner,

Subject, Continuing the existing trough main drain on the right side of Jagalur Road at cost of Rs 24,300/ in Davangere

Sir,

With reference to your letter No L 2754 dated 6-1-1946 on the above subject, I have the honour to forward herewith the detailed estimate and plan of the work in question received from the President,Town Municipal Council Davangere with his D O No 61/45-46 dated 28-1-1946 This drain is proposed to be constructed over a length of 1940 and in continuation of the existing drain, and to join the tunnel across the Jagalur Road just in front of the Anekonda village This is the only feasible mode of the disposal of the sewage water of Davangere town and abatement of the long standing nuisance for the Anekonda village

2) I request that early sanction of Govt may kindly be obtained for the proposed work and also to provide a sum ofRs 12150/ out of the town Improvement grant during the current year and to permit the Municipal Council to meet theother half of the cost out of its closing balance as resolved by the Munic pal Council

3) The plan, the estimate for Rs 24300/ and a copy of D O No 61/45 dated 28-1-46 of the President are enclosed herewith for favour of information of Government

To

The Sanitary Engineer,
Bureau of Sanitary Engineering,
Bangalore.

Sir,

Subject - Construction of a drain for diverting Davangere Municipality sewage water from Anekonda village in Jagalur Road.

I have the honour to state that the villagers of Anekonda have been repeatedly complaining that a good deal of sewage water of -- Davangere town is flowing into their village & there being no drain or out-fall constructed in that locality and it has in consequence been source of great nuisance to them. On a reference from this office, an estimate for Rs 21,510/- was got prepared by the Davangere Municipality for putting up a drain to lead all the sewage water into a tunnel across Jagalur road as it was considered to be the only feasible mode of disposing of this sewage water. A reference was made to Government to meet a moiety of the cost and instructions were received from Government in letter No.L.535/R. dated 10th July 1946 from the - Secretary to Government, Revenue Department (copy of which is enclosed) stating that it is desirable that permanent measures for the disposal of the sewage water should be undertaken in consultation with the Sanitary Department instead of merely transferring the nuisance to a little distance further. Accordingly the President, Davangere Municipality was requested to submit definite proposals as indicated by Government in consultation with your Department.

The President, Davangere Municipality reports that the Assistant Engineer, No.IV Sanitary Sub Division, Chitaldrug sent an estimate for this work to you on 4th November 1946 and it has not been received back in his office till now in spite of a D O. letter to you.

The villagers of Anekonda bitterly complained to the Dewan in his recent tour in the District about this long standing nuisance. The Dewan has asked me to expedite the matter. I request you to give this your personal attention and send up the plans and estimates for further

further action. The matter may kindly be treated as urgent. Copy of letter received from the President's Secretary is enclosed herewith for your information.

I have the honour to be,
Sir,
Your most obedient servant,

Sd/- M. Ramaswamy,
Deputy Commissioner,
Nilgiris District.

Dated, Chitaldrug, 14th [illegible]

M 50 - 46 - 18

To

J. B. Allamahya, Esquire, M A,
Secretary to Government of Mysore,
Revenue Department, Bangalore

Sir,

Subject - Construction of a drain for diverting Davangere Municipality sewage water from Anekonda village in Jagalur Road.

With reference to your letter No L.535/A dated 10th July 1946 on the above subject instructing that it is desirable that permanent measures for the disposal of the sewage water should be undertaken in consultation with the Sanitary Department instead of merely transferring the nuisance to a little distance further, I have the honour to state that, on a reference made from this office, the Sanitary Engineer, Bureau of Sanitary Engineering has prepared an estimate for Rs 42,750/- and plans making provision for the permanent disposal of the sewage of the town According to the present revised estimate all the sewage is led in a silk pattern drain to a distance of 300 feet to a septic tank of a capacity of one lakh of gallons and after treatment with cholorine it will be made use of for irrigating lands It is reported that the septic tank will admit of easy adoption to the underground drainage scheme to be taken up

The subject was considered by the Municipal Council, Davangere at a special meeting held on 9th December 1946 and the Council has resolved that this work should be undertaken urgently and the Government may be requested to meet a moiety of the cost The President of the Municipality in his letter No P C 61/45-46 dated 11th December 1946 has reported that in view of the very heavy commitments, i e, construction of (1) P C C tank, (2) building for the Municipal office, (3) building for the High School, (4) underground drainage, (5) Vegetable Market etc, the Municipality is not in a position to bear the entire expenditure for this work and the Government has to bear a moiety of the cost

The villagers of Anekonda have been recently complaining about this nuisance and recently when the Dewan tour[illegible] in this --

this District last month they made representations to him also and he has instructed me to expedite the matter.

With the heavy committments such as the underground drainage, construction of the R C C tank, relaying the - pipe line, construction of the Vegetable Market, acquisition of lands for the Intermediate College, construction of the Municipal Office building etc., the Municipality is not in a position to meet the entire cost of this work. I strongly recommend that in view of the urgency and importance of this drainage work, the Government may be pleased to bear half the cost out of the Town Improvement grant during the current year and the Chief Engineer requested to arrange for taking up this work immediately and complete it as expeditiously as possible.

The entire file of records ending with letter No H C 61/45-46 dated 11th December 1946, copy of the Sanitary Engineer's report dated 30-11-1946 with estimates and plans is enclosed - herewith for favour of reference.

I have the honour to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Chitaldrug District
